About Us

We work with our clients from the beginning of their project, engaging a network of consultants and specialists in their field as we strive to achieve your outcomes on time and on budget. Being local, we understand the needs of our customers, seasonal deadlines and the environment we work in.

Located in Robinvale, Northern Victoria, Mallee Earthmoving and Excavations was established in 2015 by the Gallace family. Initially work was generated from numerous requests by local agricultural businesses to undertake small earthmoving projects. Today Mallee Earthmoving and Excavations is a fully fledged and family owned Earthmoving enterprise. We are committed to ensuring a safe working environment for our employees, contractors and suppliers.

We work in partnership with our stakeholders to ensure compliance with their safety systems and promote a strong safety culture within our own organisation as we believe all incidents are preventable.

We have a reputation for high quality work, exceptional customer service and total project management solutions by engaging a team of specialist consultants.

MEE understands the importance of the protection and sustainability of the environment in which we work, and we will consult at every stage of the process to ensure minimal disruption to our native vegetation and wildlife.

Meet the team

MEE employs qualified and highly skilled operators, administrators and consultants with the capacity to undertake large-scale commercial projects alongside smaller residential works, particularly in the horticultural, transport and renewable energy sectors.

Steven Gallace – Managing Director

Kylee Gallace – Accounts

Iain Robertson – Consultant Civil Engineer

Anthony Mezzatesta – Site Supervisor

Jon Donehue – Field Technician

Ian Wescombe – Quarry Manager

"Our vision is to be recognised as the preferred earthmoving civil contractors in our region based on diligence, integrity, performance and value encompassing environmental awareness and sustainability without compromising safety or quality"

Equipment

MEE owns and maintains a comprehensive fleet of earthmoving and quarrying equipment serviced by fully qualified plant mechanics ensuring quick turnaround times to meet changing project schedules. Key earthmoving equipment is fitted with GPS control.

To ensure all equipment is maintained at the highest standard MEE operates a fully equipped workshop at the Robinvale head office and a fully equipped service vehicle for onsite maintenance.

Our Fleet Includes:

- Excavators 5t to 47t
- Graders
- Rollers
- Land Planes
- Loaders
- Semi Tippers
- Tandem Tippers
- Articulated Dump Truck
- Water Carts
- Dozers
- Sand Hoppers
- Crushers and Screens
